

# SKYLINE HIGH SCHOOL

## PRINCIPAL'S MESSAGE

October 5, 2020

Twice a year, each teacher in Granite School District, including Skyline High School faculty, is formally observed by a member of the school administration. I have been doing formal observations a lot over the last few days and weeks. It's an exciting time to be in classrooms and to experience what each of our students experience on a daily basis. I particularly spend my time observing teachers who are newer to the profession. I can say with full confidence that some of our newest teachers are some of the very best in the profession. Skyline has a great faculty.

Today I was observing Mrs. Brindley's Community of Caring class. I was so impressed that we have dozens and dozens of students who choose to take a class that focuses on service to others. Today's lesson was discussing the possible positive impacts that a single person can have on the lives of others. All the students who participated vocally articulated the benefits they can see in being someone that serves others.

I am so honored to be surrounded by the many faculty members who take it upon themselves to not only teach your students but to serve them. They honestly love your children and are working tirelessly to provide all students, in person and distance learners, the very best instruction they possibly can. As you advocate for your children in your communication with these teachers, I encourage you to think of them as partners. They share with you the responsibility for helping grow the fine students of Skyline High School into accomplished young adults. Thank you for allowing us to be a part of the process. I recognize what an honor it is for you to entrust your children with us. I hope that the experiences they are having, even during this trying time, are meaningful and meet their needs now and into the future.

What a wonderful community we have here at Skyline, where parents are so actively engaged and teachers are so professional. This is a recipe for success.

Sincerely,  
Mitch Nerdin, Principal
