

# SKYLINE HIGH SCHOOL

## PRINCIPAL'S MESSAGE

April 6, 2021

Spring is a time for renewal and rebirth. My wife loves going to baby animal days. She loves visiting the farms and seeing all the new little baby animals. They are super cute, cuddly, and full of hopeful energy.

In a high school, Spring inspires similar energy. As the weather warms, students feel newfound energy and strive for new experiences. I am hopeful that students will view this time as a new start and will double efforts to gain as much as possible from their classes. I am hopeful they will open up to their classmates, teachers and parents about their hopes and dreams. I encourage everyone to appreciate the energy that this season excites and value the moments that are so full of hope. I am grateful to be part of Skyline High School as we move into the 4th quarter and hope we can all come together and have a wonderful Spring Season.

Please, tell us stories of teachers who have done something that has made a difference at Skyline High School. Think about the four components of our RISE program. Teachers are working hard and doing amazing things to help students be Resilient, have Integrity, Support themselves and others, as well as achieve Excellence in its various forms. Feel free to participate as often as you see fit to recognize the great teachers we have at Skyline High School. Teachers receive an award weekly for being recognized. They love to hear that their efforts are being appreciated. Here is a link to the survey:

This week, we will highlight Mr. Curtis Houston. Mr. Houston joined the Skyline Math Department at the first of the school year and quickly established himself as an exceptional teacher. Mr. Houston is being recognized by the Skyline community:

“This was an instance that actually happened last quarter. During the Covid shutdowns our daughter was sent home three times. Never having Covid. Therefore she got pretty far behind in math, but Curtis was super helpful and gave us a path to where we could get an acceptable grade. After discussion he was appreciative of the reach out from our side and gave us a great road to get back on track. We are lucky to have teachers like him.”

“Mr Houston is a really good math teacher! He helps us understand the lessons and is a great teacher :)”

Congratulations Mr. Houston for all you do to help Skyline Eagles RISE!

Sincerely,  
Mitch Nerdin, Principal
