

# SKYLINE HIGH SCHOOL

## PRINCIPAL'S MESSAGE

January 24, 2022

Skyline continues to demonstrate resilience and support as student academic achievement excels. We just completed the first semester of this school year. After the invasive and disruptive nature of last school year, we all hoped this year would go much smoother. While it has not been without its difficulties, this year is promising to be a remarkable year for student academic achievement.

As I have been looking over the data from the first two quarters of this school year, the average GPAs of all grades given during these two grading periods are respectively the highest in four years. The average GPA at Skyline High School for quarters one and two are 3.39 for 1<sup>st</sup> quarter and 3.27 for 2<sup>nd</sup> quarter. These represent the highest grades achieved by Skyline students over the last four years. Congratulations to our students, their families, and our amazing staff.

Additionally, the failure rate this past quarter is lower compared to the last four years for 2<sup>nd</sup> quarter. This is a true testament to the hard work teachers and families have spent supporting students. I hope we can celebrate that through even a pandemic, Skyline is working to help more students succeed in school at higher levels than ever. What an incredible community Skyline is to stay focused on students. This helps to ensure we meet the core responsibility to provide Utah's best education for high school students. Go Eagles!

We want to hear from you about how our great teachers worked to help your students succeed this last quarter. We will honor a staff member each week based on your feedback. Please, take a moment and tell us about the great things happening in the classrooms of Skyline High School. Here is the link for nominations: <https://forms.gle/mDQPY7xybBCKnpg97>.

Sincerely,  
Mitch Nerdin, Principal
