

# SKYLINE HIGH SCHOOL

## PRINCIPAL'S MESSAGE

May 9, 2022

Skyline High School is a great school with amazing students and teachers due to wonderful mothers. These mothers are the reason I want to extend my appreciation for all the mothers in our community and here at Skyline. Happy Mother's Day to each of you. Congratulations on the amazing job you have done, and continue to do, on behalf of the wonderful students in our school.

Mothers love their children and cherish them because of who they are and for the potential they see in them. The students here are wonderful people with kind hearts. They are so welcome in the halls at Skyline. Students come from all over the greater Salt Lake area and beyond to our school. They often come because the caring, loving mother of a student wants to send them to a place that offers so much and is so accepting of all students. Skyline is proud to accept almost 50% of the student body from outside the school boundary. This adds to the mosaic of the school and diversifies everyone's experiences.

Potential is a curious word when you use it to refer to children, it does not have to be well defined to be meaningful. Skyline students have the potential to become whatever they want. I hope all students feel they can come here and have growing experiences that help them to accomplish their goals. I hope we are seen as the partner we strive to be to families and especially to mothers. We work ardently to help students to grow, learn from experience, and develop to achieve the potential seen by us as educators, parents and, most importantly, the students themselves. It is great to see all our Eagles RISE to their potential. Thanks to all the mothers out there. We are honored to support them as they strive to help their students become their best selves.

We want to hear from you about how grateful you are for the teachers at Skyline. We will honor a staff member each week based on your feedback. Please, take a moment and tell us about the great things happening in the classrooms of Skyline High School. Here is the link for nominations: <https://forms.gle/mDQPY7xybBCKnpg97>.

This week we honor Ms. Jane Jones. Ms. Jones teaches Chemistry, Medical Anatomy and Physiology, and AP Environmental Science. She is dedicated to her students' success while remaining mindful of their needs. She is very knowledgeable and professional.

Here are some comments about Ms. Jones:

"Encourages students to get work done and answers questions with clarity. Helps the students feel welcome."

Congratulations Ms. Jones!

Sincerely,  
Mitch Nerdin, Principal
