 - GSD School Boards should approve and announce the contractor on October 18th

Looked at the relo map. We also looked at the new safety recess map. Ask Sharla if they will fence off the area outside of the library. Granite School District will hold a study session on October 24th. We will get more information at the next meeting.

- Safe Walking Plan
 - <https://www.saferoutesutahmap.com/map/school-maps/truman-298>

We need to change the contact on the safe walking route. There was some talk about kids going off the safe walking route on 4700 south instead of going through the neighborhood. Also, there was some concern about kids not using the sky bridge. Karyn said 1.5 miles for the elementary before bussing is provided. We looked at the 2700 road and we found out the sidewalk is done.
