We are expecting to expand to 525 students for the 2023-2024 school year (about 107 more). With this, the plan is to move from 15.5 teachers to 19. We have also requested a full time social worker.

SEL Survey data:

In November a SEL survey went out to all of the students. The data reflected how students felt about themselves and going to school. We are hoping to raise the positive numbers throughout the rest of the school year.

PBIS is looking into changing the Graduate of Granite expectations to align primary and secondary schools. These are to be safe, responsible, respectful, dependable and communicating hard. Originally this was three and has been moved to five expectations.

Land trust final decision:

Plan to hire 1 to 2 people to work as a para, teacher, interventionist, etc.
