

Jan. 8, 2019

Members present:

- Kimberly Barlow
- Katy Timothy
- Becky Watkins
- Daisy Reyes
- Victoria Zarandona
- Somer Julio
- Emily Olaya

Breakfast in the Classroom

- Kimberly presented the idea of having breakfast in the classroom and the reason why she thought of bringing before the council
- Snack lunch/snack breakfast program started this year
  - Half-day kindergarten get a snack in the classroom
- There are pros and cons to breakfast in the classroom
  - Pros- each kid is offered breakfast each day, they will have a full stomach to learn, it is free to all students, it is beneficial to students that can't arrive early, this is the direction that the District feels is best for students, meets Federal Nutritional Guidelines
  - Cons- Lost instructional time, clean up, may not be healthiest food, what do we do with the students who come before 8:30? Students may have allergies or dietary restrictions, food is wasted and thrown out and isn't supposed to be reserved
  - What would happen if a student arrives late? Save food or they miss breakfast?
  - What would happen with classes who have PE and specials first thing in the morning? Schedules would need to be adjusted.
- Other option- <https://fns-prod.azureedge.net/sites/default/files/cn/FFVPFactSheet.pdf>
  - Use as a snack in the morning

After School Program

- Grant for after-school program
  - 5 year grant, school required to pay for part of it in years four and five
  - 3 other schools also received the grant
  - Oquirrh Hills is closing- we will receive about 100 students from their school
  - 4 days a week- Shaunna Hebertson coordinator
  - 1st-6th grade
  - Invitation only based on guidelines set by the school
  - 3:45-5:45
    - Students need to be picked up- they can't walk home
    - Target strategic students (yellow students on DIBELs and low greens)
    - Use middle of the year DIBELs data
    - Online registration portion- see if we can do it at the school
    - About 90 students
    - Try to pull in siblings, if possible
    - Snack at 3:45, 4:00-5:00 instruction, 5:00-5:45 enrichment

#### Community Center funded through the district

- Theresa Reyes will be the coordinator
  - Zumba and yoga
  - English classes
  - Parenting skills
  - Kindergarten readiness
- Held in room 16

#### 6th Grade Transition

- What are our feelings about 6th grade transitioning into middle school for our school?
- Some parents like the idea, others are opposed
- It would be an issue for our Gifted Dual Immersion since they feed into two schools that do not accept 6th grade students
- Kearns Jr. only has two grade levels- 7th and 8th grade
- Pros
  - Have 3 years to adjust and get ready for high school
  - Helps Kearns Jr. have more teachers
- Cons
  - Kids may not be ready for junior high- socially, emotionally
  - Lose our 6th grade teachers

#### Weather and Temperature Guidelines

- Community Council chooses the temperature when students go outside
- Currently we do “feels like” 20 degrees
  - The council likes the idea of the current policy
  - Precipitation- we try to bring them in when there is precipitation
- Students who have a note for being sick can sit in the office
- Air quality rules
  - Red- we stay inside
  - Yellow- asthma students stay in
  - Green- we all go out, unless there is a parent note because the student is sick

SSAP- give feedback by email
