West Valley Elementary Vision

At West Valley Elementary...

- We are becoming an authentic STEM school dedicated to growth.
- We are responsible for our own learning and helping others along the way.
- We are not afraid to take risks and try new things because everyone can learn.
- We will keep trying until we get it!
- We are all involved in our efforts to build a strong community.

West Valley Elementary Mission 2021-2022:

- We will learn how to use informational texts to explore the world around us and gain knowledge about how things work.
 - Teachers will use integrated informational texts at least 50% of the time in their ELA instruction.
 - We will measure student growth through grade-level CFA's.
