- The Woodstock SCC understands that smart devices are a useful tool for promoting safety and connection between school and home*
- Smart devices brought to school are the sole responsibility of the individual student. Woodstock will not be responsible for lost, stolen, or broken devices, as these devices are not required by the school.*
- If a student brings a smart device to school, the device may not be used for calls, texts, internet access, photos, videos, games, or video or sound recording without staff permission in advance*
- Students may use these devices on campus once they are out of school and out of the building”*
